DATABOOK ELECTRONIC REPLACEMENT GUIDE

It is customary for AT thru-hikers to attempt and typically, succeed to eat a half-gallon of ice cream at the convenience store closest to the halfway point on the Appalachian Trail. Upon taking over the ATC, Avery adopted the more practical goal of building a simple hiking trail. In past years, some sections of the trail also used metal diamond markers with the AT logo, few of which survive.

The Unsettling Truth About the 'Mostly Harmless' Hiker

Later, he would tell friends that he wanted to be buried in that field. August 31, 2018, at the , , August 29, 2018. Shelters are generally maintained by local volunteers.

September 30, 2007, at the Couplands. In August 1937, the trail was completed to in Maine, and the ATC shifted its focus toward protecting the trail lands and mapping the trail for hikers.

Appalachian Trail

Probably the best memory of all is back then a shelter was never really crowded and there were so few of us.
