with the operating system. Windows CE is the Windows for handheld computers, informational appliances, and embedded devices. Of course, whether Microsoft got paid for Office by the OEMs may have changed over time, and depending on the OEM.

Economics of Predatory by George A. Hay

I constantly read in forums and magazine articles talking about Microsoft's great success and profitability. It was dictating what the public should have — their software. A practice is illegal if it restricts competition in some significant way without any overriding business justification.
