Chinese Immigration and the Chinese in the United States

Nevertheless, the Chinese represent a minority group among those smuggled into both the United States and Europe.

11.5 Race and Ethnicity in the United States

Immigrants from this time period have been more likely to be Muslim and more highly educated, escaping political unrest and looking for better opportunities. The text presents sociological concepts and theories and lays a foundation on the subject of globalization and offers a comprehensive perspective by which to view other societies.

In fact, Irish immigrants were subject to criticism identical to that with which the dominant group characterized African Americans.

11.5 Race and Ethnicity in the United States

Although the sea route to North America captured so much public attention in the late 1990s, it is likely that the majority of smuggled Chinese reached diaspora communities in South and Central America and the Caribbean by air, before moving onward to the United States by sea or land. This was because the Chinese were deemed racially and culturally different, or because they were feared for their business acumen.
