### Introduction

Characteristics of STEM and non-STEM majors. SY 2015-2016 Consolidated State Performance Report, Part I and Part II — State by State Reports The Consolidated State Performance Report: Parts I and II, approved by the Office of Management and Budget OMB for SY 2015-2016, reflect data from the 2015 — 2016 school year unless otherwise noted.

### State Indicators

Census Bureau to calculate enrollment projections for prekindergarten nursery school, kindergarten, first grade, elementary ungraded, and secondary ungraded Step 6. NOTE: Although rounded numbers are displayed, the figures are based on unrounded data. Like teachers, most American principals are white and female.

 This edition was published in August 2001

Filesize: 5.93 MB

This assumption implies that all factors influencing enrollments will display future patterns consistent with past patterns. In fall 2017, the percentage of students who were ELLs was higher for school districts in more urbanized areas than for those in less urbanized areas.

## Introduction

These are just a few of the statistics contained in the Back to School , which offers data about American elementary, secondary and postsecondary schools, students, and the educational process. The report is based on two-page profiles that report the same indicators for each state.

## State Indicators

The set of population projections used in this year's Projections of Education Statistics are the Census Bureau's 2008 National Population Projections by age and sex August 2008 , adjusted to line up with the most recent historical estimates. Absolute expenditures on public elementary and secondary education have increased over time, but when normalized by levels of state GDP, expenditures have decreased in many states. National policymakers have a convenient source for state-by-state statistics, outcomes, programs, and demographics, as well as national totals for comparison.

## Report

If you have any questions about the Consolidated State Performance Report, please email your questions at.
