Compression and consolidation of clayey soils : proceedings of the International Symposium on Compression and Consolidation of Clayey Soils, IS

. Table 1 represents, for each data and for each different cartographic support, the landscape use; the comparison has enabled the analysis of land changes from 1812 to present days, covering a time period of 200 years, giving information about the historic persistence of soil use typologies along with their time-driven modifications.

Geotechnical Problems and Solutions: A Practical Perspective
