Int J Bus Admin Res Rev.

## Nursing Supervisor Job Description and Fundamental Skills

As it was conducted with nurses who only read and spoke Mandarin, the Chinese version of the job satisfaction scale which comprised 12 items from the OSI, was used. The data were collected using a self-report questionnaire that consisted of six sections: demographic information, leadership style, job content, general health well-being, organisation commitment and job satisfaction. Nurse supervisors proactively train new nurses about processes, procedures and administrative functions as well as identify professional development opportunities.
