Their experimental results indicated that controlling for group identification viewing disparaging portrayals in comedy and drama damaged several aspects of self-esteem specifically performance and social self-esteem, even when the content was considered entertaining. A small number of studies support this assertion. Throughout history, media outlets have constructed a racist narrative that dehumanizes our communities in support of an agenda that promotes and protects white supremacy.

Social Update: Social Media and Race Relations — Modern Treatise

Next, psychological studies which determine the circumstances in which racist ideology is accepted the most are analyzed. In this paper, we will discuss the impact of mass media on improving or weakening the relationships between the people belonging to different races. However, some of them tried claiming that their part is to reflect objectively on societal issues.
