[European Community Respiratory Health Survey in Adults (ECRHS)].

Larson H, de Figueiredo A, Karafilakis E, Rawal M. The prolonged economic crisis has created centrifugal forces that are pulling European public opinion apart, separating the French from the Germans and the Germans from everyone else.

Mapping community psychology in Europe

In the 2019 survey, the LGB categories cover respondents who self-identified as lesbian women, gay men, bisexual women or bisexual men.

European Social Survey

While for those with only BHR, neither of the summary scales were significantly different between those with BHR alone and those without.

European Social Survey

Of course, these estimates are uncertain, but comparing this 71—74% threshold range with our results indicates that the current willingness levels in France, Germany and the Netherlands, in particular, may prove insufficient to reach this threshold. Rights clearance is a particular challenge for audiovisual works, where for any single work there can be a wide range of rights and many different rights holders. And the survey contradicts oft-repeated narratives about the Germans: that they are paranoid about inflation, disinclined to bail out their fellow Europeans and debt-obsessed.

The European Community Respiratory Health Survey II

The more recent surveys paid more attention to , and future surveys will also include techniques, organisational change, design and marketing issues. The situation deteriorates when society is negative towards the LGBTI community, when public figures, politicians and political parties have negative stance and public discourse, community leaders and civil society are unsupportive, and existing laws are not enforced.
