Heart disease

Atherosclerosis can cause a heart attack.

Your Heart & Circulatory System (for Kids)

In fact, research suggests that hypothyroidism is more common in people who can't tolerate statins. Arteries supplying oxygen to the body. The research we fund today will help improve our future health.

Warning Signs of Heart Failure

The thyroid gland releases thyroid hormones that increase the heart rate. The longer you have diabetes, the more likely you are to have heart disease.

Thyroid hormone: How it affects your heart

The atria and ventricles work as a team — the atria fill with blood, then dump it into the ventricles. Norepinephrine also signals the muscle in your heart to beat harder.

Your Heart & Circulatory System (for Kids)

Your lungs add oxygen to your blood.
