DIY Old Fence Board Ideas

Tip: Create yourself a simple template out of a see-through material so you know exactly where to place your screws, then they will line up perfectly. Because wood also decays, it also means that it needs to be replaced eventually. On slopes, be sure to split the difference in height of the adjacent outside pickets.

It will make sure all your wood is the same height and also give those rough 2 x 4s a beautiful, smooth finish. I saw lots of these fences around PDX but they're not common--actually they're not even known--where I am now Wisconsin so just trying to figure out some of design and material pitfalls before I dive in.

How to Make My Old Wooden Fence Look New Again

Cedar lattice fences are proven to be stable, extremely durable and does not easily, split, warp or crack.

Without the proper protection, natural wood will start to look old and dingy in a short period of time and can start to decay within a few years. Protecting your exterior wood surfaces usually involves a time-consuming process of cleaning all the exposed surfaces and treating them with stain or sealant. Then, nail a top and bottom rail running horizontally from the posts, and add center rails and boards, depending on your chosen fence style.
