# **Soft Touch Coating for Printed Marketing Materials**

Internet service required and not included.

#### Rust

Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Soft Touch ® coating creates a softer look and feel on printed materials than either aqueous or UV coating, while creating a barrier which is fingerprint resistant. Performance is sequentially faster read only compared to traditional 5,400 rpm HDD.

### **30 Best White Paint Colors**

It can be applied as a clear translucent topcoat over a wide variety of substrates and basecoats to produce a lustrous full matte finish.
