Persephone as a and her mother were the central figures of the, which promised the initiated a more enjoyable prospect after death. It is possible that the association between the two was known by the 3rd century BC, when the poet may have written about it in a now-lost source. The location of this mythical place may simply be a convention to show that a magically distant chthonic land of myth was intended in the remote past.

This is evident with the rosette and meander patterning in the dress. Hades complies with the request, but first he tricks Persephone, giving her some seeds to eat. Homer memorializes the dance floor which built for in the remote past.

#### **Insulation Made From EPS**

Historians originally believed that the Peplos Kore was wearing a regular peplos, but in fact was wearing an ependytes with animal friezes. The priests used special vessels and holy symbols, and the people participated with rhymes. Hesperia: The Journal of the American School of Classical Studies at Athens.
